April 2021

EUPHAnxt Newsletter

Dear **EUPHAnxt members**,

Welcome to the April edition of the EUPHAnxt newsletter! If you are new to our network, you are very welcome. In these newsletters, we hope to share relevant events, updates, news, and vacancies in the area of public health. We are constantly looking for information to share with our network.

Additionally, EUPHAnxt is looking for a young professional with expertise in COVID-19 and great public speaking skills. Interested or know someone who may be interested? Send us an e-mail including why you would be the perfect candidate! info.euphanxt@eupha.org

SAVE THE DATE: July 8, 2021

We are planning a mid-term conference this upcoming summer. We are very excited to plan a COVID-19 compliant event for our network. The theme for the upcoming event will be environmental health. Stay tuned!

We'd like to send a very special thank you to **Arjan van der Star** who founded EUPHANxt 10 years ago. After starting as an intern in 2011, Arjan coordinated EUPHANxt for several years and founded the EUPHA Sexual & Gender Minority Health Section. Thank you for all of your contributions, Arjan!

(NOTE) If you have any recommendations for the next newsletter, please submit the details to Charlotte at info.euphanxt@eupha.org And if you wish to receive the newsletter directly to your inbox, and avoid it going to spam, please add euphanxt@gmail.com to your contacts.

Thanks for tuning in,
The EUPHANxt team

EUPHANxt, the next generation network

Established in 2011, EUPHANxt is a unique network within EUPHA (European Union Public Health Association) for students and young professionals, including early career researchers and policymakers, in the field of public health. It is coordinated by students and young professionals. EUPHANxt is a free and open initiative that aims to inform and involve the future generations into the European and multidisciplinary network of public health associations. You can join us [here!](#)

Mission Statements

- **Create a network** between young professionals interested in public health and health related fields, to advance information sharing and international collaboration
- **Strengthen the presence of young professionals** in the European public health community by facilitating their contact to relevant public health professionals and by providing them with opportunities to further advance their academic skills
- **Build collaborations** with associations of young professionals to broaden the EUPHANxt network and represent the diverse aspects of public health

Upcoming Events

World Health Organisation (WHO)
Virtual Infodemic Management Conference
May 4-12, 2021

This conference brings together experts from different areas of research and practice to exchange lessons learned for advancing approaches in digital social listening for public health.

[Learn more!](#)

14th European Public Health Conference
Public health futures in a changing world
November 10-12, 2021

Public health has changed a lot in the last thirty years. Whole sub-disciplines, for example health informatics, and genetic public health, have grown up in that time. Has the core practice of public health changed?
